# Remarks on board the Ship Minerva of New Bedford

Saturday March the 20th 1841

Commences with a strong breze from the ESE main all sail steering WSW. at 3 PM raised Sperm Whales and at 3½ down all four Boats in chase succeeded in killing and saving five lines to the 1st Boat & one to each of the other Boats. at 8 PM. got the along side and put on the fluke chains. Then shortened sail and at a quarter watch. some time in the night one of the fluke chains parted and we lost the Whale. at daylight hoisted down to Cut with a strong breze from the South. at 8 am got through Cutting and unrove the pitty. 8 Knots this 24 hours. 6 to Obs 1 day.

Sunday March the 21st 1841

Commences with a strong breze from the North headed to the Eastward under short sail with all hands employed in clearing away the fluke and Cutting of the four Whales at 6 PM got through and started the fires and set the Watch. Middle part thick and squally. Latter part a light air from the ESE still under short sail headed to the Eastward thick and Cloudy. 6 Knots

Monday March the 22nd 1841

Commences with a light air from the ESE under moderate sail headed to the Eastward Boiling. at one PM had a heavy squall of thunder and lightning attended with rain rolled down until four then cleared and started the fires again. Middle part thick and squally. Latter part at 4 PM had another thunder squall so was obliged to cool down & 2d boarded a Brazilian Bark from Rio de Janeiro bound to Monte Video. had lost his main top-mast by lightning the day before. by 6 PM had cleared so started the fires again & PM. to Cloudy & got an Obs this day.

Tuesday March the 23d 1841

Commences with light and variable winds from the South veering to the ESE under Whole topsails Boiling. at 4 PM had a very heavy tempest with torrents of rain which lasted for an hour then cleared at 7 PM finished Boiling and cooled down and set Whole Watches stowing at 6 for St. Catharines with the usual mast. Middle part under single reefs. Course the same. Latter part made all sail and stood ENE. with the usual PM. clear and pleasant. 9 Knots this day. Lat by Obs 32° 20 South Long by Chron 49° 01

Wednesday March the 24th 1841

Commences with a moderate breze from the SW running to the NNE. with a fine topmast studding sail out. one sail in night Middle part Calm. Latter part at 5 PM took a light breze from the SW and stood by the wind on the L. tack and Watch employed in fitting our Cutting Blocks and runner hooks. 9 Knots this day. Lat by Obs 31° 46 Long 48° 37 West

Commanded by Moses Samson at Anchor in Saint Catherines.

Thursday March the 25th 1841

Commences with a light air from the S.W under all sail to the wind at 2 P.M the Wind hauled to the West stood on N.E and with a topmast studding sail. Middle part wind and course the same Latter part stood N.W with the wind S.W clear and pleasant. So Ends.

Friday March the 26th 1841

Commences with a strong breeze from the S.W under all sail steering North. Middle part wind hauled to the West stood to the wind on the L. tack. Latter part at 1 P.M made the East end of St. Catherine's bearing N.N.W by Compass distant 40 Miles. So Ends close hauled with the wind N.E.

Saturday March the 27th 1841

Commences with a moderate breeze from the N.E under all sail working in for the Land at 4 P.M bent our Chains and got the Anchor off the Bow. at 7 tacked off shore four hours then stood in until one P.M. and hauled the main topsail to the mast and lay until daylight then squared away and ran for the mouth of the Bay with a light air from the S.W. got within the mouth of the Bay and died away Calm. down Anchor in 12 fathoms muddy bottom lay until 10 P.M. then took a light air from the South and ran up under the South shore of St Catherines Island and let go our Anchor in five fathom muddy Bottom furled the sails and commenced breaking out between decks and stowing Oil in the after hold. So Ends

Sunday March the 28th 1841

Commences with fine weather with all hands employed in breaking out and Coopering and stowing down Oil in the after hold at 4 P.M an American Brig the John Harris of New York passed us bound to New York. at 7 P.M set an Anchor Watch two by two

Monday March the 29th 1841

Commences with thick and drizzly weather with all hands employed in Breaking out Coopering and stowing down Oil in the lower hold at 5 P.M finished stowing the Oil washed up and set an Anchor Watch. So Ends this day

Tuesday March the 30th 1841

Commences with fine pleasant weather with all hands employed in stowing away between decks and clearing off on deck. in the afternoon the first and second officers went on shore to trade. set up the fore and main topmast studding sail booms and at 4 P.M set an Anchor Watch. So Ends this day with fine pleasant weather.

Remarks on board the Minerva of New Bedford Mass.

Wednesday March the 31st 1841

Commences with moderate weather with a Boats crew on shore trading. At 11 AM came on board again then took our Anchor and ran up the Bay to the Anchorage beyond the fort with a light air from the North furled the sails and set up the topmast rigging up Ballast rigging. at 6 PM the Barque Corsair of New London 6 months out nothing and the Ship — Bounders of Cap Harbour 10 months out 700 Bbls. 400 Sperm came in and Anchored above the fort at 7 set an Anchor Watch

Thursday April the first 1841

Commences with pleasant weather with the mind 36 Employed in getting off Wood and Water from the Shore at 9 PM the first and third officers and a Boat crew started for the City to enter the Ship. being about 12 miles from the anchorage at 4 PM got back again. Moved a raft of Water down in the lower hole and got another ready to go on shore then set the Watch.

Friday April the 2nd 1841

Commences with fine pleasant weather with all hands (except a Boats Crew which started at daybreak to go up to the City for) Employed in Wood and Watering. Latter part of this day blowing a Gale from the South. So Ends

Saturday April the 3rd 1841

Commences with fine pleasant weather with all hands Employed in getting off Wood and Water, at Noon finished and all ready for sea. thus ends this four and twenty hours.

Sunday April the 4th 1841

Commences with fine pleasant weather with our topsails loosed ready for sea. at 9 PM took on Anchor and stood out of the harbour with a light breze from the North at the mouth of the bay spoke the Barque Marcus of Cap-Harbour bound in with 1300 Bbls. 300 Sperm. Moved our Anchors and Chains and cleared up the decks. So Ends this day

Monday April the 5th 1841

Commences with a moderate breze from the North under all sail steering E & S from St. Catherines harbour at 8 PM the Island of Alhurado bore by Compass E by N distant 10 miles. wind Hauled to the S by W thick and rainy shortened sail and set a quarter Watch steering East. Middle part increased on and blew a Gale at 5 PM called all hands and took in the forsail and close reefed the Main topsail and hove to. blowing a heavy Gale from the South with a plenty of rain at Noon cleared a little and stopped raining. So Ends. Lat 27:23 Long 46:57

Commanded by Moses Samson Cruising for Sperm Whales

Tuesday April the 6th 1841

Commences with a Gale from the South laying too under a close reefed Main topsail and fore and main Spencers heads to the Eastward at 3 P.M. spoke the Barque Nimrod Master of this Port bound into St Catherines at 6 P.M. set a quarter Watch and at 3 A.M. the wind shifted to the SE & was under reefed Sails South and at daylight made all sail and steered SbE the remainder of this day thick with frequent squalls of rain. No Observ

Wednesday April the 7th 1841

Commences with a moderate breze from the SE under all sail steering SbE. at six P.M. shortened sail and set a quarter Watch Middle part wind hauled to the S & SW. at daylight made all sail and kept off South with a strong breze & thick weather saw nothing of note this day. Lat by Obs 29°:02 S Long 46°:15 W

Thursday April the 8th 1841

Commences with a strong breze from the SSW under all sail steering SSE. at 7 P.M. shortened sail and hove too with a quarter Watch on deck, at daylight made all sail to the wind on the Southern and Eastern tack with the wind South blue and pleasant at noon hauled to the Westward three Sails saw from mastheads this day.
